

Errata

Listed below are additions for the L1000A “Quick Start Guide”. Please correct your manual accordingly.

◆ Applicable Documentation

Manual No.	Page	Chapter
TOEPC71061632I	P52~54	9 Safe Disable Input Function
TOEPC71061633H	P48~50	
TOEPC71061638H	P237~242	C Standards Compliance

◆ Correction

Replace the description in “Safe Disable Input Function” with the following description.

The Safe Disable input satisfies the requirements in ISO/EN ISO 13849-1 and IEC/EN 61508, SIL2/SIL3.

Refer to the Technical Manual for details about the application of this function.

Note: Safe Disable input wiring should not exceed 30 m.
